```python
def pattern(num):
    for i in range(1, num + 1):
        print(" " * (num - i), end="")
        for j in range(1, i + 1):
            print(j, end=" ")
        print()
num = int(input("Enter the number of rows: "))
pattern(num)
```
